Safari Itinerary

10TH & 11TH – DEPART USA/ARRIVAL NAIROBI

Your journey begins as you board your flight from the USA en route to Nairobi, Kenya. Arrive in Nairobi, the safari capital of East Africa, where you will be welcomed by a Classic Journeys Customer representative who will assist you with your transfer to your hotel for check-in. He will brief you on your program and introduce you to your tour driver who will be with you throughout the safari. After check-in to your hotel, he will leave you with his mobile number and an emergency number for your attention through your safari. Have lunch at a local restaurant and continue to

giraffes were brought here by Jock and Betty Leslie-Melville, who founded AFEW (African Fund for Endangered Wildlife) and built the Nature Center to help educate young African children about wildlife conservation. The Rothschild giraffes are the tallest species and may reach eighteen feet in height, but you can see eye to eye with them on the elevated walkway at the center.

Later proceed to your hotel for dinner and overnight.

Nairobi

12TH JULY – NAIROBI EXCURSION

After a briefing about the exciting events ahead, prepare for an unforgettable adventure as you visit Daphne Sheldrick's Elephant Orphanage, located on the edge of Nairobi National Park. This nursery and rehabilitation center cares for infant elephants that have lost their families. Daphne Sheldrick, the wife of renowned naturalist David Sheldrick, devoted her life to conservation. David, the founding Warden of Kenya's vast Tsavo East National Park, served from 1948 until his death in 1976. Daphne continued his work, making a profound impact on the lives of elephants and rhinos that would have otherwise perished due to poaching and human-wildlife conflict. During your visit, you'll witness the elephants being brought by their keepers to the waterholes and salt licks for feeding and socializing. Watch as they roll in the mud, engage in playful sparring, and interact affectionately with their keepers. The knowledgeable staff will be on hand to share insights about the elephants' habitats and provide fascinating details about their care. Eventually, these young elephants are released into the wild at Tsavo East National Park, where they are welcomed by other orphaned elephants who have been successfully reintegrated into the wild.

Continue to the Karen Blixen House, the former residence of Danish baroness and author Karen Blixen (1885–1962), best known for her book *Out of Africa*. Karen lived in this lush residential area from 1914 until 1931, when she returned permanently to Denmark. The house, built in 1910, originally sat on a 6,000-acre property, of which only 600 acres were cultivated for coffee, while the rest remained as natural forest.

In 1963, the Danish government, which had purchased the house, offered it as a gift to Kenya. By 1986, the building, previously used as a school, was converted into a national museum. Much of the original furniture remains on display, with many pieces either belonging to Karen herself or used in the filming of *Out of Africa*.

This evening, enjoy a welcome dinner at the renowned **Carnivore Restaurant**, followed by an overnight stay at Tamarind Tree Hotel.

Tsavo West

13TH, 14TH & 15TH JULY – TSAVO WEST NATIONAL PARK

Begin your safari with a scenic drive to Tsavo West, renowned for the captivating Mzima Springs. This star attraction is a natural oasis, offering a crystal-clear pool of fresh water with underwater viewing hides for observing hippos. The springs, fed by a gushing supply of pure water, have created a haven for wildlife. A special underwater observatory allows visitors a glimpse into the underwater world of Mzima. The water catchment is divided into two pools: the upper pool, home to hippos, and the lower pool, inhabited by crocodiles.

Kilaguni Serena Safari Lodge is located in the shadow of Mt. Kilimanjaro. Encircled by volcanic grandeur, the lodge sits adjacent to a bustling watering hole frequented daily by herds of elephants, buffalo, and plains game, offering the finest watering hole experience. Thoughtfully positioned, every room, along with the open-air restaurant, timbered viewing decks, and rock-hewn bar, enjoys sweeping, uninterrupted views of the legendary snow-capped peak of Kilimanjaro. The lodge is ideally situated in the heart of lion-stalked grasslands, elephant-dotted plains, and bush teeming with wildlife, making it a perfect base for exploring the park's prime attractions.

Constructed from volcanic stone and incorporating the natural rocky outcrops of the valley known as “the place of the young rhino”—from which it takes its name—the lodge seamlessly blends into the savannah. Cool, tranquil, and designed to maximize wildlife viewing, the open-air dining area, timbered decks, and stone-built bar reflect a harmonious mix of traditional safari style with touches of vibrant, painted banners, sepia-toned artwork, and olive-wood carvings of elephants and playful warthogs. The elegantly refurbished rooms draw inspiration from the warm tones of the savannah—sun-gold, sky-blue, and bush-green—combining world-class luxury with an authentic African ambiance. Each room features a private verandah, offering breathtaking views that stretch into eternity.

Amboseli National Park

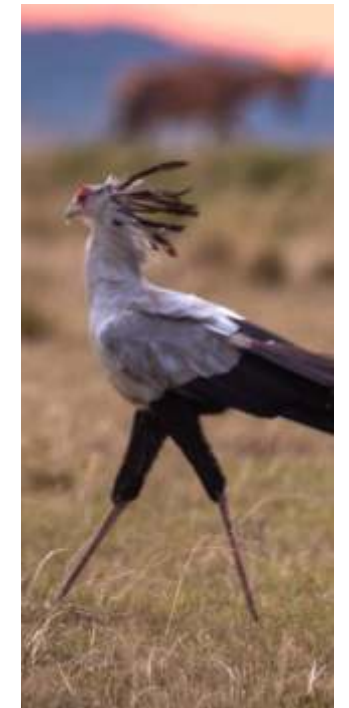

16th-18th JULY - AMBOSELI NATIONAL PARK

Today's journey takes you to Amboseli National Park, nestled at the foot of Africa's highest peak, Mt. Kilimanjaro, which Ted famously climbed in 1972. The snow-capped summit of Kilimanjaro soars above the clouds, dominating the landscape and casting its majestic presence over every corner of Amboseli. Although the park spans just 150 square miles, its fragile ecosystem supports an impressive diversity of wildlife, with over 50 large mammal species and more than 400 species of birds.

Years ago, this region inspired the works of renowned writers like Ernest Hemingway and Robert Ruark, who spun tales of big-game hunting in the African wilderness. This is also part of Maasai land, where it's not uncommon to see proud Maasai warriors or children tending cattle as you travel through their ancestral territory. In this land, animals and humans have learned to coexist, thriving together despite the often harsh conditions. Amboseli is also famous for being the site of Cynthia Moss's groundbreaking elephant research, one of the longest-running studies on elephants led by the respected American naturalist and author.

In the shadow of Mt. Kilimanjaro, beside towering acacia trees and natural springs, stands Amboseli Serena Lodge. With Kilimanjaro's 19,340-foot, snow-covered peak presiding over the breathtaking scenery, the setting is truly unmatched. Surrounding the lodge, the wildlife that makes East Africa legendary roams freely—lions, buffaloes, cheetahs, giraffes, baboons, gazelles, zebras, and wildebeests. Influenced by traditional Maasai architecture, the lodge blends seamlessly with its environment. Its beautifully landscaped gardens, thoughtful guest services, and exceptional amenities create a unique and welcoming atmosphere.

The Masai Mara

19TH, 20TH & 21ST JULY – MASAI MARA /NORTHERN SERENGETI

This morning, board your scheduled flight to the Masai Mara, Kenya's most iconic wildlife reserve and the stunning backdrop for much of the film *Out of Africa*. The Masai Mara is a classic expanse of savannah grasslands, where animals roam freely against breathtaking vistas. Here, the Maasai people tend their cattle in harmony with the abundant wildlife, all coexisting on the same land.

You will spend 3-4 days immersed in wildlife viewing within the Masai Mara Reserve, often referred to as the "Jewel of Africa." This vast sanctuary is home to many of the continent's most celebrated animals, including lions, cheetahs, elephants, leopards, black rhinos, and hippos. Birdlife is equally rich, with over 500 resident species, including ostriches, larks, sunbirds, and the striking lilac-breasted roller.

The reserve is renowned for its sweeping grasslands and the Mara River, which flows through the heart of the park from north to south. Covering 700 square miles, the Masai Mara forms part of the greater Serengeti ecosystem and plays host to one of the world's most extraordinary natural events—the annual migration. Each year, up to two million wildebeest, accompanied by thousands of zebras and a host of predators, traverse the plains, following the rains and the promise of lush new grass in an awe-inspiring display of survival and instinct.

The trek is perilous, as many of the lame, lagging, and sick animals fall prey to ravenous packs of predators. Even more will perish while attempting to cross the Mara River's swirling floodwaters. You will be in the Masai Mara at the peak of the migration season, with a likely front-row seat to witness this dramatic spectacle unfold before your eyes.

Overnight : Mara Serena Safari Lodge
Meals : BLD

While in the Masai Mara, optional activities are available at an additional cost. One highlight is a balloon safari—an exhilarating experience that lets you glide over the savannah at sunrise, when the animals are most active. For a nominal fee, you may also visit a Maasai village, gaining insight into their rich culture. Additionally, a hippo pool breakfast is included, where you can savor a full breakfast while being surrounded by nature.

The Mara Serena Safari Lodge is designed to reflect a traditional Maasai manyatta, with its cluster of domed huts. It offers accommodation in 73 guest room, styled to mirror the circular motif of a Maasai village. The rooms, widely spaced and secluded, are decorated in vibrant bush colors and feature large, spacious en-suite bathrooms, providing both comfort and an authentic African ambiance.
